Steel, concrete and glass rise out of the clay and sand, a testament to the persistent will to build a new city of Zion in the desert. But it’s here that the desert basin ends and the mountains begin. Here, that allusive drama, musicians and chefs draw inspiration from the drama of the surrounding landscape. Topographic prominence is the visible rise of the mountains off the valley floor. Contours lines crammed together, rising and falling with peaks and canyons. Wildflowers in summer. Snow in winter. The Rocky Mountains branded the Wasatch Front with a 2,000-foot wall of granite and limestone - bedrock that gave rise to Salt Lake’s historic architecture, that helped make this place. The wall is porous. We travel freely between city and summit.
